SUMMARY OF THE REASONS FOR DECISION:

The untitled photographic material also known as *Item 16 Packet containing 24 negatives* has been classified as:
Unrestricted.

The publication is made up of six strips of photographic negatives. The images captured in the negatives are identical to those images described in OFLC publication number 9901536. The dominant images in this publication are naked or semi-naked young women photographed in a romantic and aesthetic manner. It is considered that the format of this publication impedes easy access to the images.

The extent, degree and manner of the presentation of nudity raised in this publication does not render its availability likely to be injurious to the public good as outlined in the Films, Videos, and Publications Classification Act 1993 and consequently no restriction is placed on the publication. The freedom of expression contained in the New Zealand Bill of Rights Act 1990 is not limited by this classification.
